

# CS3011 Symbolic Programming

Michaelmas 2018

This describes what I know as of 3 September 2018.  
Some details might well change during the next 11 weeks.

## Schedule

Monday	1-2	LTEE1	Lecture
Monday	4-5	LG12	Lab for surnames A-L
Tuesday	2-3	LG12	Lab for surnames M-Z
Wednesday	10-11	LB01	Lecture

## Plan

We will follow the book

*Learn Prolog Now*

by Patrick Blackburn, Johan Bos and Kristina Striegnitz

<http://www.learnprolognow.org/>

closely, covering roughly a chapter a week, using slides available at

<https://www.scss.tcd.ie/Tim.Fernando/LPN/>

There will be two assessed lab exercises, to be assigned at least two weeks before they are due.<sup>1</sup> Each will be worth 5% of your final mark, leaving 90% for the exam.

Labs begin Week 2 (Monday 17/Tuesday 18 September).

An attendance sheet will go around during each lecture. Please put your initials by your name if you want your presence noted. I will use the attendance record in borderline cases (moving you up if you attend regularly).

---

<sup>1</sup>To get credit, you will need to show your demonstrator

David Woods, `dwoods@tcd.ie`

that it works during a regularly time-tabled lab session. *No* credit will be given for submissions emailed to Tim Fernando.
